## SUMMARY

---

---

Having widespread, comprehensive training and experience within the criminal justice field, specifically child/adult physical and sexual abuse investigations, police policy and procedures, nuclear security and Emergency Medical Services, use of force and computer forensics. I am able to apply this knowledge and experience in an impartial and factual manner towards all of the cases I investigate.

I am committed to factual investigations involving officer use of force, criminal investigations, police procedural deployment, Conductive Electrical Weapons, their use, the implementation and accurate instruction. I have extensive training and certifications in the area of Conductive Electrical Weapons to include training, implementation, and post action review of Conducted Electrical Weapons. My experience is not only through training but, I have also personally used the device in actual police situations multiple times and have reviewed over 100 use of force reports involving the use of CEWs. Additionally I am a Senior Master Instructor as a TASER Technician and TASER Evidence Collection Analyst. I have applied this training to actual cases where I have reconstructed events and presented them before State and Federal courts in testimony and opined reports.

I have received extensive training in the use, training, and ethical standards for the proper forensic examinations of computer and mobile devices. My experience is not only through training but I have also personally forensically examined over 100 computer and mobile devices. My computer forensic and cyber crime investigative experience includes case investigations and forensics at the state and federal level with cooperative investigative efforts and forensic assistance to the FBI, Department of Homeland Security (ICE), State of NJ, State of VT, NH State Police Major Crimes Unit, and multiple local law enforcement agencies within the State of VT, NH and MA. I have received specific training in on-scene mobile and computer forensics as well as forensics completed in a laboratory setting.

My professional experience includes holding positions from the ranks of patrol officer to Chief of Police as well as holding several instructor and management titles in the Emergency Medical Services field. This allows me a diverse knowledge that can be applied to every case allowing the most accurate results.

---

---

## MAJOR ACCOMPLISHMENTS

---

---

- Earned multiple commendations as a police officer and EMS provider
- Certified EMS Instructor since 1990
- Certified Police/Nuclear Security Instructor since 1992
- Assisted over 50 police agencies throughout VT, NH, and ME with the implementation and development of TASER CEW use of force guidelines along with assisting each agency in the development of solid CEW training programs
- Worked with multiple EMS services and Medical Facilities throughout New England on the proper treatment and response to post exposure patients as it relates to TASER CEWs.

- Implemented 1<sup>st</sup> TASER XREP (wireless CEW) program in New England
- Worked closely with TASER XREP developers to correct cold weather issues with TASER XREP devices
- Assisting in the development of an EMS/Law Enforcement behavioral emergencies protocol which allowed advanced level on-scene sedation for subjects experiencing potential dangerous and violence prone negative behavioral events
- Certified Advanced Emergency Medical Technician in 3 States (VT, NH, ME) as well as Nationally Registered/Certified.
- Appointed to the TASER International Training Advisory Board
- Selected as one of 7 TASER Forensic and Evidence Collection Instructors in the world

---

---

- TASER XREP/X12 Instructor – 2008, 2010
- TASER X26 & M26 Technician – 2009
- TASER Forensic Evidence Collection and Analysis Technician – 2009
- TASER International/Amnesty International Debate – Boston, MA 2005

---

---

## TASER INTERNATIONAL ACCOMPLISHMENTS & TRAINING

---

---

- Received over 400 hours of advanced TASER training both didactic and practical
- I have been exposed to the TASER M26, X26 & X2 over 300 times by means of probes deployed into various areas on my body and through drive-stun techniques.
- Have instructed over 150 TASER Instructor Courses
- Have provided instruction in the use of the TASER M26, X26(P), X2, X3 and XREP devices
- I have provided TASER device instruction to over 3000 Law Enforcement officers from over 200 police agencies from 25 States and 11 countries.
- I have provided TASER forensic training internationally
- I have exposed over 2000 volunteers to the effects of the TASER M26, X26(P), X2 and X3 devices and have fired and/or witnessed the device being deployed in live fire training over 10,000 times.
- I have been involved in the actual deployment of the TASER M26, X26, X3 and XREP in over 25 police situations.
- I have reviewed over 100 TASER uses of force reports and determined use of force appropriateness through department policy, state laws, and adherence to TASER International Training curriculum.
- I have given over 50 Informational TASER Demonstrations to various police agencies, Committees, City Counsel Members, Medical Facilities and Public Forums.
- I have trained over 500 police officers (Basic Users) on the M26, X26, X2 and XREP devices

- I have provided awareness training to over 1000 medical professionals in 4 states on the M26, X26 and XREP, associated medical risk and myths and post deployment treatment, In-Custody Death Awareness and Prevention. This training has been recognized in three states for medical continuing education credits.
- I have worked closely with over 50 Police Agencies in 4 States assisting them in the implementation of TASER devices, policy writing, training, use of force monitoring/tracking, and assisting with TASER device technical issues.
- 2012 - promoted by TASER International to the position of Sr. Master Instructor. This promotion placed me in a status approximately 30 others in the world hold. Responsibilities include providing instruction to Master Instructors at annual Master Instructor conference(s), Quality Control (QC) Evaluation of new Master Instructors at TASER Instructor course(s) throughout the country, Advanced level instruction and support as require by TASER International.
- 11/2013 – Senior Master Instructor for Glendale, AZ Master Instructor School
- September 2014 – Senior Master Instructor – Columbus Ohio Master Instructor School
  - Squad Leader
  - Instructed 185 Students various TASER Device trainings
- July 16<sup>th</sup> & 17<sup>th</sup>, 2014 – Certified as TASER Technical Solutions and Investigations Instructor. This certification is held by only 7 Sr. Master Instructors in the world. Training curriculum covers advanced level technical instruction of TASER devices as well as crime scene investigations and forensics to identify the course of events that transpired during a TASER deployment through digital and physical forensic investigative techniques.
- October 2014 – Senior Master Instructor – Columbus, OH
  - Instructed over 175 students in Defensive Tactics and Weapon Transition Drills
  - Squad Leader
- June 2015 – Senior Master Instructor – Columbus OH
  - Certified 27 students in a 16 hour TSI course
  - Instructed 80 Students in Device Downloads and use of Evidence Sync Software
    - Instruction also include detailed information on how to interpret Event Logs and Pulse Graphs
    - Instructed 80 students in use of AXON Flex and Body Cameras
    - Instructed 80 Students in Scenario based exercises involving Tactical Use of CEWs.
- August 2015 – Senior Master Instructor – Waterloo, CA
  - Certified 25 international students as TASER Master Instructors.
- October 2015 – Senior Master Instructor – Charlotte, NC
  - Certified 45 Students in a 16 hour TSI course
  - Instructed over 100 students in Device Downloads and Evidence Sync Software
    - Instruction included detailed information on how to interpret Event Logs and Pulse Graphs.
  - Instructed over 100 students in scenario-based exercises involving tactical use of CEWs.
- January 2016 – Senior Master Instructor – Glendale, AZ
  - Instructed 65 students in CEW and camera troubleshooting, downloads, event log and pulse graph interpretation.
  - Also provided detailed practical training to include weapon safety, deployment and scenario based exercises involving tactical use of CEWs.

---

### MEDICAL INSTRUCTOR QUALIFICATIONS

---

- 1992-2009 - Senior Training Instructor for Rescue Inc. Training Center – Brattleboro, VT
- Emergency Care and Safety Institute Instructor – 2013, Re-Certified 2015
- Nationally Registered Emergency Medical Technician – Basic & Intermediate – 1990-2009

- Vermont Emergency Medical Technician – Basic & Intermediate – 1990-2009
- Over 4000 hours of medical education and advanced training – 1990 – 2009
- Advanced Pre-Hospital Trauma Life Support – 1991 & 2006
- Pediatric Emergency Pre-hospital Care (PEP) – 1993
- VFIS Emergency Vehicle Operation Instructor – 1992
- Bloodborne Pathogens & Infectious Diseases Instructor – 2003
- 18 Years instructional experience in over 100 courses including s
  - EMT-Basic & Intermediate National Curriculum
  - Instruction given in all aspects of EMT training to include IV Therapy, Pharmacology and Advanced Airway Management
  - Pre-Hospital Trauma Life Support (PHTLS)
  - Bloodborne Pathogens/Infectious Disease for Police and EMS Professionals
  - Basic Cardiac Life Support CPR/AED
  - Basic & Advanced First Aid for lay community
- Multiple Specialty Courses given at seminars and recertification courses in:
  - EMT Field Safety
  - Dealing with Emotionally Disturbed Patient's
  - Autism Awareness
  - TASER post deployment care and treatment
  - In-Custody Death & Excited Delirium
  - Illicit drug use awareness
- 1990-2009 - Field Training provided to multiple paid and volunteer EMT's and Paramedics for Rescue Inc. with over 3000 hours of provided training.

---
